

Name	Astronomy 11	Block
Score	Stellar Evolution Project	Date Due:

1. Select a star type, or phase of stellar evolution
2. Create a presentation highlighting the attributes of your choice

The presentation must contain

Technical Information

1. Relevant statistics such as size, duration of phase, etc.
2. Information on progression to next phase (if any)
3. Temperature, color, etc.

Extra Information

1. Background behind its discovery
2. What is interesting about your choice?
3. What challenges would exist for human exploration?
4. What are the chances of finding life on a planet in orbit around your star?
5. Lots of photos, if possible. If not, artists' renditions!
6. One or two video clips

Any other interesting trivia

Bibliography
